

## USB SPEAKERS

### USB DESKTOP SPEAKERS AND SOUND RECORDER

High quality computer  
sound monitors with  
USB audio capture.

## ION USB SPEAKERS ARE READY FOR ANYTHING - ARE YOU?

The ION USB Speaker audio system goes beyond standard USB computer speakers. Designed by professional studio musicians, they deliver premium clarity and audio performance.

Enjoy great sounding audio from your computer, or record audio coming into the speaker to your computer. It's plug-and-play - no special drivers required.

Check your mixes with full range, superb sound quality for accurate audio reproduction. The "Bass

Boost" switch enhances low frequencies - great for situations where you want to hear more bass emphasis.

Upgrade your system with speakers that double as a convenient digital audio interface. Easily connect a guitar, keyboard, CD player or other devices directly to the ION USB Speakers and record them directly into your computer.
