

▼ Proel volume pedals are available for guitars and, of course, for keyboards. The construction is thermo-plastic A.B.S. upper body with zinc coated weighted base. Internal components are high quality and include dust sealed volume pots and Proel own circuitry ●

PVP10

The PVP10 volume pedal was created to provide expression to a single channel from a guitar or any other monophonic pick up system. The PVP10 uses a 100 K-ohm volume pot that enables a perfect regulation of the volume of a signal. Fitted with a 2m cable and a mono jack

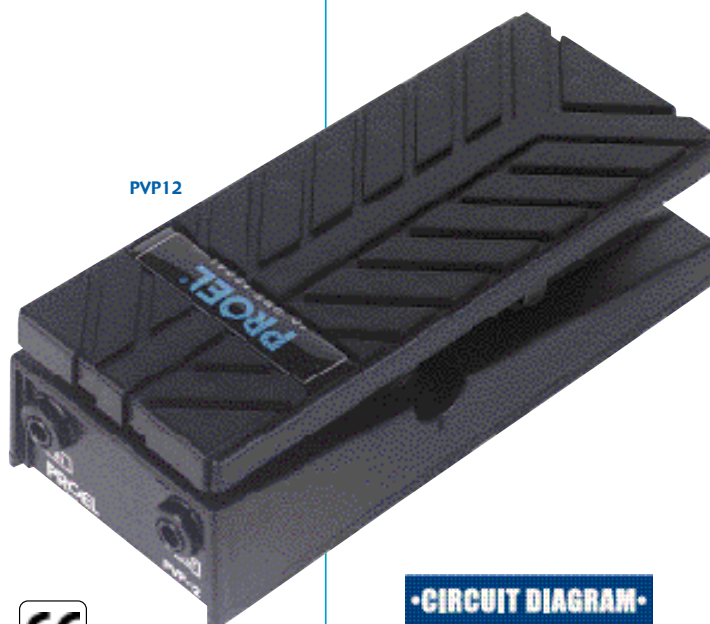

PVP10

TECH INFO	
Impedance	100 KΩ (long-life linear potentiometer for guitar)
Input	1.95 meter fixed lead with mono jack plug
Output	ø 6.3 mm mono jack socket
Dimensions	86 (W) x 200 (D) x 60 (H) mm
Weight	0.600 kg
Volume (1 pcs)	0.00265 cbm
Master pack	12 pcs
