# 🔮 netDrives

## **Hard Drive Addendum**

# Formatting your netDrives Drive for Windows XP

Your new Glyph drive has been formatted for the Mac. To use the drive with your Windows system, you'll need to format your hard disk for Windows.

### 1. Open your Control Panel and click Admistrative Tools.

## 2. Click Computer Management

### 3. Click Disk Management

- 4. The wizard will pop up here to help click cancel here.
- 5. The drive should show up in the right hand side of the screen and could be designated Disk 1, depending on how many drives you already have.

Bevice Manager     Storage     Pemovable Storage     Disk Defragmenter     Disk Management     Services and Applications	C Disk 0 Basic 18.99 GB Online	(C.) 18.99 GB NTF5 Useding (273000)	
	CPDisk 1 Basic 27.95 GB Online Unallocated	27.95 GB Unallocated	N

6. Right click on Disk 1 and choose Initialize. The wizard should pop up again - choose Primary Partition.
