

# CD-160mkII

## The World Standard in Reliability

- MP3 file playback
- 40-second anti-shock memory
- CD-R/RW disc playback
- Intro check
- Single repeat and all repeat for audio CDs
- Single repeat, all repeat, and folder repeat (REPEAT ALBUM) for MP3 CDs
- Shuffle play
- Program play
- $\pm 6\%$  Pitch control
- Headphone output with level control
- Optical and Coaxial S/PDIF digital outputs
- RCA unbalanced analog outputs
- 2U rackmount size
- Included wireless remote control

Already one of the industry's most popular and reliable CD players, the **CD-160mkII** is an update from TASCAM. The player has gained MP3 playback for hours of playback, and has both optical and coaxial digital outputs. The look of the best-selling CD player has also been updated.

Contractors count on TASCAM for installed playback systems that keep on working. The CD-160 has been one of our most-popular affordable CD players, and the updated version is everything Contractors and System Integrators have come to expect from TASCAM.

# 202mkIV

## Professional dual-well cassette deck

The **202mkIV** dual cassette deck is ideally suited for both dubbing and continuous-looping playback applications. Two twin-head cassette decks in a durable rack-mount housing can be used separately or in tandem during recording and playback. Additional features include dual recording speeds, computerized program search and other functions that make editing tapes quick and easy.

- Dual Auto Reverse
- 12% +/- Pitch Control on Deck #1
- Front Mic input with Level Control
- Headphone Output w/Level Control
- Power on Play and Record
- Can record on both sides simultaneously
- Dolby B Noise Reduction
- Normal and High speed dubbing
- Two motor IC logic transport control system
- Electronic digital tape counter
- Auto tape selection
- Fine tune bias control
- Unbalanced RCA inputs and outputs
