

ES-333

The ES-333 advances the legendary tradition of Gibson semi-hollowbody guitars that began in 1958 with the ES-335. The 333 looks like a player's guitar, with its well-worn satin Faded finish, and it plays like one, too, with all the essential performance features of its more expensive cousins in the 335 family. The ES-333 is an unbeatable combination of looks, sound and affordability.

ES-333
