

# GO MIC DIRECT

## Portable USB Microphone with Noise Cancellation Technology

Free Samson Sound Deck audio software with noise cancellation technology download available

Samson's Go Mic Direct is the ideal portable audio solution for Skype, FaceTime, voice recognition software, as well as recording audio for YouTube videos, lectures, podcasts and webinars. The Go Mic Direct also features Samson Sound Deck audio software with noise cancellation technology (Mac/PC only), allowing you to capture pristine, accurate vocal communications and recordings in any environment. With Go Mic Direct, you'll never want to use your computer's standard internal microphone ever again.

The Go Mic Direct's custom, ultra-compact design features a built-in USB connector that allows the mic to be plugged directly into your Mac/PC without blocking surrounding ports. In addition, the connector is retractable for maximum portability and safe transport when not in use. Compatible with both Mac and PC, Go Mic Direct offers convenient plug-and-play operation with no driver installation required. Its also works with iPads and iPhones (4S and later) using Apple's Lightning USB Camera Adapter or Camera Connection Kit (30-pin), making it a great tool for mobile podcasting, popular speech-to-text software and field recording.

At the core of the Go Mic Direct is the Samson Sound Deck audio software, available as a free download from Samson's website. Upon download, the software resides on your computer's taskbar and provides incredible features for online communication. Sound Deck uses Digital Noise Reduction algorithms to minimize recurring background noise from loud environments, ensuring only clean, natural sounding vocals are received by your family, friends or business associates. They'll feel as if you were in the room talking to them live.

High-quality components, versatile features and pristine full-range audio have made Samson an industry leader in professional audio solutions known for their fidelity and reliability. As such, Samson invites you to take the incredible sound of Go Mic Direct, our most portable and innovative USB microphone to date, to any environment.
