

The *INSPIRED BY* Series

DAVE GROHL DG-335

A brilliant songwriter and multi-instrumentalist, Dave Grohl is one of the most dynamic and powerful performers in recent memory. Channeling the intensity of his legendary drumming into guitar playing, Grohl rose from the ashes of Nirvana and has spent more than ten years as the frontman and guitarist for the Foo Fighters. Gibson Custom is proud to celebrate Dave Grohl with the new Inspired By DG-335. Based on Dave's beloved Gibson Trini Lopez guitar, it is a fitting and poetic tribute to Grohl himself - combining the bedrock authenticity of tradition with the power and passion of innovation.

THE CUSTOM SHOP DIFFERENCE

Passion.

It burns in the heart of every player who purchases a Gibson Custom Shop guitar... and it burns in the heart of every employee who helps build our world-class instruments.

We vow to continue infusing every instrument that passes through our doors with that same passion. It's what makes our guitars the best.

From initial wood selection to final assembly, we sweat the details so that when you pick up your guitar, *your dream*, it exceeds every expectation you could possibly have.

For 2007, we will continue to strive for excellence, remain faithful to our history, and never lose sight of our goal to build the finest guitars in the world.

Pick one up for yourself. Feel the passion that we put into our guitars and release yours.
