

# SWITCHBOX.v2 Digital-DJ Manual

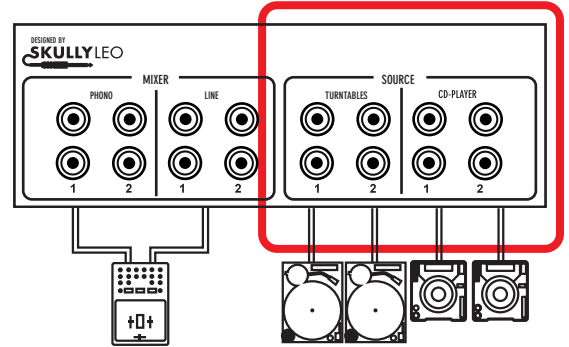

Step 1: Connect your DJ-Mixer to the Switchbox "Mixer" (use the incl. Multicore Cable)

Connect Phono 1 to "Phono 1" (left+right)  
 Connect Phono 2 to "Phono 2" (left+right)  
 Connect Line 1 to "Line 1" (left+right)  
 Connect Line 2 to "Line 2" (left+right)

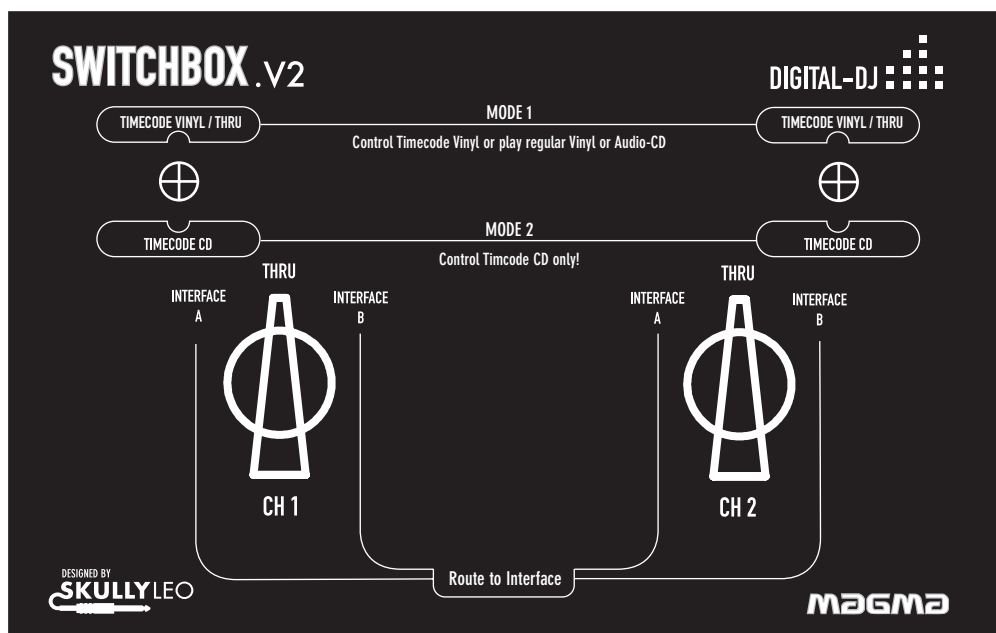

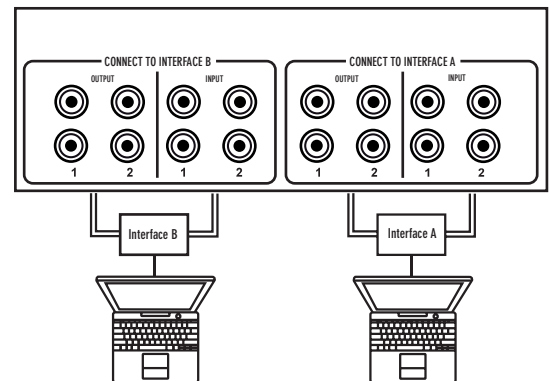

Step 2: Connect your Hardware to the Switchbox "Sources"

Connect your left Turntable to "Turntable 1"  
 Connect your right Turntable to "Turntable 2"  
 Connect your left CD-player to "CD-player 1"  
 Connect your right CD-player to "CD-player 2"

Step 3: Connect your Interface/Soundcard to Switchbox "Interface A" or "Interface B"

Pls. Choose your model in the Interface list below and follow the wiring instructions

Step 4: Select the preferred Timecode Mode

If you want to play regular Vinyl or audio-CDs select Mode1 and THRU

If you want to control your music with Timecode-Records select Mode 1 and Interface A or B

If you want to control your music with Timecode-CDs select Mode 2 and Interface A or B

**ATTENTION! IMPORTANT NOTE:** If you want to play regular Audio-CDs from the CD-player, select THRU and always stay in Timecode Vinyl/THRU Mode! Never use THRU and Timecode CD mode together as this mode is only to control the Timecode signal with CD-players.
