

## PT01 Portable Turntable

### Product Overview

### Product Description

The PT01 is a full-featured portable turntable featuring battery and AC power, built-in speaker, and multiple RPM speeds with pitch control.

An efficient belt-drive motor operates at 33, 45, and 78 RPM and there is  $\pm 10\%$  pitch control, as well as tone and volume controls. A built-in phono preamp and speaker allow convenient monitoring. There are also RCA line level outputs as well as 1/4" and 1/8" headphone outputs.

The PT01 plays all standard record sizes up to 12 inches. A removable headshell is standard, and a cartridge, slipmat, and 45 RPM adapter are all included.

### Positioning

The ultimate portable turntable

### Applications

High-quality vinyl playing on the go
