

RC-20 Loop Station

The RC-20 Loop Station is the answer to many live performers' dreams - a compact phrase recording and sampling pedal that's actually easy to use! A long sampling time of up to 5 min. 30 seconds, helpful Guide Click and Loop Quantize functions, Realtime Tempo Change and hands-free control make the RC-20 a "must-own" pedal for guitarists, bassists and other musicians looking to create and play back loops "on the fly."

- Phrase Recording/Sampling pedal designed for performers who want to create and play back loops during live performances
- Guide Click and Loop Quantize functions for quick, easy creation of perfect loops using footpedals
- Realtime Tempo Change function allows for changing recorded samples' tempo without changing pitch
- Overdub function allows for creation of "sound-on-sound" loops
- 5 min. 30 seconds total sampling time
- Stores up to 10 looped phrases and 1 "one-shot" phrase, even after power-off
- Mic input, Instrument input and Auxiliary input for sampling vocals or pre-recorded audio; Mic and Instrument inputs can be used simultaneously
- Auto Start lets users start sampling automatically with incoming audio
- Reverse function creates reverse sample playback on the fly
