## Recommended software for Ultra Focus

These recommendations supersede all information supplied on the product box, in the brochures and on the Ultimate Sound Bank web site ([www.ultimatesoundbank.com](http://www.ultimatesoundbank.com)).

This list groups all the sequencers that were successfully tested with Ultra Focus.

Other applications that fully respect the VST2.0 implementation guidelines, should be compatible with Ultra Focus.

Application not shown in the list may be compatible, but were not tested and are not eligible for our tech support.

### Mac OS X (v10.2.4 and up) - Panther (10.3) Recommended :

#### **VST OS X**

Cubase SX 1.06/ SX 2

#### **Audio Units**

Logic Audio Pro 6 or higher (6.4.2 recommended)

Avoid Ultra focus Audio Units in Digital Performer 4.

#### **MAS OS X**

MOTU Digital Performer 4.1 and higher (we strongly advise to use MAS OS X version of Ultra Focus with DP 4 and we recommend DP 4.1 and higher that will give you access to special instrument tracks for virtual instruments)

#### **RTAS OS X**

Pro Tools LE: 6.1 and up (**6.0 is NOT recommended**)

Pro Tools TDM: 6.1 and up (**6.0 is NOT recommended**).

### PC:

#### **VST**

Logic Audio 5.5.1

(**Logic 4.xx is NOT recommended**)

Cubase SX 2

Tracktion

Orion Pro

#### **RTAS**

Pro Tools LE: 6.1 and up (**6.0 is NOT recommended**)

Pro Tools TDM: 6.1 and up (**6.0 is NOT recommended**)

#### **Dxi**

Sonar 3

FL Studio

**Thank you for choosing Ultra Focus !**
