

PORTABLE PHANTOM POWER SUPPLY

The P1 Portable Phantom Power Supply gives you 48V or 12V of reliable power for condenser microphones, on the go. This small but rugged unit is an essential utility product for engineers and musicians who use condenser mics or any other gear that requires phantom power, such as active DI boxes or mic preamps. Charge it up with any 5V USB power source, run it in-line between your microphone and your mixer or recording unit, and enjoy clean power and hum-free audio for any performance or recording—absolutely anywhere!

FEATURES
