

Expedition XP300 300-Watt Portable PA

 PORTABLE PA

POSITIONING

The Samson Expedition XP300 is an all-in-one sound system that offers excellent audio quality with quick and easy setup. Providing 300 watts of power, the XP300 features a lightweight, 6-channel powered mixer and two 6" speakers. For enhanced portability, the XP300 offers a unique speaker-locking design that allows the system and all its components to be packed up and transported as a single unit weighing just under 24 pounds.

FEATURES

An Adventure For All

The XP300 is ideal for education, business and house of worship applications because users with limited PA experience can set it up quickly and efficiently. With *Bluetooth*® connectivity to wirelessly stream audio from laptops, tablets and smartphones, the XP300 is also perfect for presentations, parties and karaoke. The XP300 includes a USB Wireless port for integrating Samson XPD Series USB Digital Wireless Systems (sold separately), now available in handheld, headset and lavalier configurations.

Featured-Friendly

Musicians and sound operators alike will appreciate some of the XP300's more advanced features such as a phantom power for condenser microphones, selectable digital effects, a Sub output for integrating active subwoofers and 2-band (Bass and Treble) EQ on all input channels. These features make the XP300 perfect for cocktail and acoustic performances.

Flex Your Sound

The XP300 speaker enclosures feature 1 3/8" speaker stands mounts, as well as a tilt-back design that allows them to be used as stage monitors. The mixer section can be removed and mounted on any standard mic stand using the Samson SMS308 Mixer Stand Holder (sold separately). Lastly, two 10' speaker cables are included with the system.
