

GK GEAR **GK**

Roland and BOSS lead the world in advanced guitar effects and guitar synthesizers taking advantage of the 13-pin GK pickup format.

The Roland 13-pin GK Pickup allows each guitar string to be output as a separate signal, permitting effects processing possibilities far beyond conventional guitar pickups. Installing the GK-2A Divided Pickup is simple and totally reversible, but the effect you have on your listeners will be permanent.

GK-2A Divided Pickup

GK Effects Introduce a New Era of "Electronic" Guitar.

WAVE PROCESSOR **WP-20G** GK Effect

Amazing Synth-Type sounds in a Convenient GK Effect Pedal.

The WP-20G Wave Processor produces fat synth-type sounds in a compact pedal designed for 13-pin GK pickup-equipped guitars. A total of six unique sounds are provided—including Saw Lead, Square, Ring Mod, Slow Gear, Sitar and Acoustic—as well as 11 chorus and delay effects, plus simple knobs for easy tweaking.

● Nominal Input Level -20dBu ● Nominal Output Level -20dBu ● Power Supply DC 9V : Dry Battery x 6, AC Adaptor ● Current Draw 150mA (9V, with GK-2A) *Expected battery life under continuous use: [Carbon : 2 hours], [Alkaline : 6 hours] These figures will vary depending on the actual conditions of use. ● Dimensions 173(W) x 158(D) x 57(H)mm (6-13/16" x 6-1/4" x 2-1/4") ● Weight 1.1kg / 2 lbs. 7 oz (including batteries) ● Accessory Dry Battery (LR6 (AA) type) x 6 ● Options AC Adaptor (PSA Series), GK-3/5/10 *0dBu=0.775 Vrms

POLY OCTAVE **OC-20G** GK Effect

An Octave Pedal Like No Other.

As its name suggests, the OC-20G Poly Octave is the world's first polyphonic octave pedal for use with GK pickup-equipped guitars. Octaves can be assigned to different strings for simulated guitar/bass combos, and built-in electric and acoustic guitar simulations—plus thick distortion—add to the sonic possibilities. This pedal even accommodates playing chords while using octaves.

● Nominal Input Level -20dBu ● Nominal Output Level -20dBu ● Power Supply DC 9V : Dry Battery x 6, AC Adaptor ● Current Draw 150mA (9V, with GK-2A) *Expected battery life under continuous use: [Carbon : 2 hours], [Alkaline : 6 hours] These figures will vary depending on the actual conditions of use. ● Dimensions 173(W) x 158(D) x 57(H)mm (6-13/16" x 6-1/4" x 2-1/4") ● Weight 1.1kg / 2 lbs. 7 oz. (including batteries) ● Accessory Dry Battery (LR6 (AA) type) x 6 ● Options AC Adaptor (PSA Series), GK-3/5/10 *0dBu=0.775 Vrms
