TC Electronic Spark Booster

Push amps to their full potential, fatten up the sound of your guitar and make your gear come alive with added grit, punch, compression and musicality. With 26 dB of boost, an active EQ, a mid-boost and a gain knob at your disposal, Spark Booster will add that certain something - without unwanted coloring of your own sound.

**North American Web Launch
5/10/12
MPA PRODUCT**

Top 3 Selling Points

1. 26 dB of boost
2. Active EQ – extended low and high end and mid boost to cut through any mix
3. True bypass – optimal signal integrity.

**Public Launch: March 21, 2012
Shipping: June 20, 2012**
