F-110

Digital Piano

Music Enters your Home!

Roland[®]

Music Enters your Home!

Enjoy the authentic performance of the stylish F-110. The latest member of the Roland family is a compact and lightweight wooden piano with a cool and fresh design that will blend into any home interior, both classic and contemporary. The minimalist aesthetic design combined with an intuitive and simple user interface will make playing a pleasure.

F-110

SLIM CABINET DESIGN

The cabinet depth of only 30 cm leaves you free to place the piano anywhere in your room, and the choice of cabinet variations (satin black and white) will cater for all tastes.

The folding lid allows the keyboard to be safely covered when closed and also serves as a music rest when raised up.

128-NOTE POLYPHONY

Thanks to SSC technology, the F-110 features 128-note polyphony and 88-key stereo multi-sampled piano sound for a truly authentic playing experience.

KEYBOARD

Thanks to the PHA alpha II (Progressive Hammer Action) keyboard, the F-110 has an amazingly natural key touch which reproduces that of an acoustic grand piano.

USER INTERFACE

F-110 features an intuitive control panel that you can instantly use with total confidence.

PEDALS

The built-in luxurious metallic 3-pedal unit gives you comfortable playability for any piano performance.

AMAZING PRESET SONGS

More than 60 different piano songs are included for your listening pleasure.
