

JamDock

MUSICIANS PRACTICE DOCK FOR IPOD

PLUG IN, TUNE UP, AND ROCK OUT. JamDock is the first dock for iPod that was designed specifically for musicians. Nearly every musician has an iPod, but until JamDock, there has never been an easy and clean way to integrate your iPod into your practice or stage setup. You can also use your iPod to play backing tracks live. JamDock has two 1/4" inputs that work with both line-level sources and high-impedance guitars and basses.

Jam out with the only dock designed for musicians!
