

Know GigaStudio in Under Two Minutes

Powerful Production Solution	<ul style="list-style-type: none"> • Unmatched sample playback capabilities • Complete, automatable 32 channel mixer • "Capture To Wave" function lets you create a stereo mix of your GigaStudio project • Able to interface with any sequencer program • Native ultra-low latency effect plugins • Find instruments in seconds with the QuickSound database search engine
Software, Not Hardware Driven	<ul style="list-style-type: none"> • GigaStudio is never obsolete. Advances in computer technology allow for ongoing upgrading • PC's are everywhere! Anyone who is anyone has a PC somewhere in his or her home. • A PC running GigaStudio is less expensive than a hardware sampler that is far less powerful. • Advanced conversion utilities let you use all of those old Akai, E-Mu, Sample Cell, Roland, Ensoniq, and SoundFont sample libraries in GigaStudio!
Giga Is A Self-Contained Application	<ul style="list-style-type: none"> • Since Giga can operate as a stand alone device, it can run simultaneously on the same PC as your sequencer, or in the role as a traditional external "sampler" or "sound module" for use with any Macintosh audio programs like Digital Performer, Pro Tools or Logic.
Outrageous Performance	<ul style="list-style-type: none"> • Up to 160 voices of polyphony • Ultra-low latency (3-9 milliseconds) with GSIF (GigaStudio Interface) compatible sound card. Just about every major sound card manufacturer offers a GSIF compatible sound card solution. • Up to 64 discreet MIDI channels
Unbelievably Realistic Samples	<ul style="list-style-type: none"> • No unnatural pitching up or down, or looping of samples • Samples and instruments up to 4.3 Gigabyte in size • Samples stream from hard drive instead of RAM using patented Endless Wave Technology • Elaborate cross-fading, layering, and powerful key-switching capabilities with the GigaStudio Dimensions feature.
Pros Use It	<ul style="list-style-type: none"> • Hans Zimmer (Academy award-winning composer: Gladiator, Pearl Harbor, Armageddon) • Danny Lux (Ally McBeal, Sabrina The Teenage Witch) • Tom Schuman (Spyro Gyra) • Chris Beck (Emmy award-winning composer: Buffy The Vampire Slayer) • Roger Manning (Beck, Jelly Fish, Moog Cookbook) • Che Che Alara (Christina Aguilera)
