

MT-90U

Music Player

Roland®

Perfect Partner for Lessons, Practice and Performance

For music students and performers, the new MT-90U is the perfect companion. Load songs from the USB port (MIDI files, MP3, .WAV) and play them back through the built-in speaker. The onboard sound engine plays multi-track MIDI files with ease; you can even change pitch and tempo. Practice and perform with full backing-band accompaniment!

■ MT-90U shown with optional USB memory (M-UF1G)

- The ultimate play-along companion for practice and performance!
- Plays MIDI and audio files (MIDI/MP3/.WAV) with tempo and key-change capability
- High-quality GM2/GS built-in sound engine provides realistic instrument sounds for MIDI-file playback
- USB port for external memory/floppy/USB-CD drive
- Wireless remote controller and microphone input with echo for karaoke fun
- Lightweight, compact and portable

Multi-Format File Playback

The MT-90U loads and plays the most popular music-file formats: Standard MIDI File, MP3 and .WAV. You can even change the tempo and pitch of your files, both audio and MIDI. It's great for sing-along sessions, or for music students who want to slow down fast, complicated licks.

USB Compliant

Equipped with a USB port, the MT-90U makes the file-import process quick and easy. Simply load your favorite songs from a USB memory key or connect external devices such as a USB floppy-disk drive or USB-CD drive.

Wireless Control

Control the MT-90U from across the room with the wireless remote controller, included. The backlit LCD is easy to see from a distance; it even displays song title, tempo and lyrics of compatible SMF data disks during karaoke sessions.

Travel Friendly

Portable and fun to use, the MT-90U features icon-based buttons and a backlit LCD, making common operations such as playing songs, muting parts, or changing tempo and musical key easy. Its lightweight design and a built-in grip handle make transport a breeze.

Setup Example

*USB-CD drive sold separately.
