OMNICONTROL

DJ CONTROL SURFACE WITH AUDIO I/O AND SOFTWARE

SERIOUS DJ SIMPLICITY. OMNI CONTROL contains everything you need to plug into any club's house PA and perform. This high-quality, heavyweight, rugged DJ device is not only a hardware controller for performing with the included Native Instruments Traktor 3 LE and MixMeister Fusion Live software; it also houses a professional digital-audio interface to feed your headphones and the sound system.

This complete professional computer-DJ package consists of a hardware controller with built-in audio interface and two software titles: Native Instruments Traktor 3 LE and MixMeister Fusion Live. Stiff, reliable knobs, faders, and buttons are high quality, delivering precision performance. An extremely clean, high-quality sound card feeds pristine audio signal to two stereo outputs and your headphones.

Traktor 3 LE is among the world's most popular DJ-software titles

for a reason: it rocks! It's compatible with Mac and PC, and works with nearly any audio format. MixMeister Fusion Live is the DJ software for performers who want to perfect the production of their performances.

OMNI CONTROL has a heavyweight, sturdy feel thanks to its high-quality controls and rugged metal housing. It'll stay in place even when your fast-scratch technique gets aggressive. Carry less and do more with OMNI CONTROL.
