SLIDES 2 PC makes it easy and fun to rediscover your 35mm film negatives and slides on your computer. Incredibly fast, one-touch scanning and a single-cable connection make SLIDES 2 PC perfect for updating your memories, your family's memories and your friends' memories!

If you're like one of the millions of people who have boxes of slide carousels in the attic or a stack of those little yellow boxes in the kitchen, SLIDES 2 PC is perfect for you! Don't know what happened to your projector? Don't know where to buy a replacement bulb for your projector? FILM 2 PC eliminates the hassle and brings those memories of family dinners, graduations, vacations, and joyous occasions back into your life.

Just install the included software on your computer, and connect SLIDES 2 PC using the attached cable, and you're ready to reacquaint yourself with your old pictures! A blue light even indicates when SLIDES 2 PC is correctly connected to your computer and ready to scan.

SLIDES 2 PC is a high-resolution, five-mega pixel scanner with a high-quality four-glass optic element. This

outstanding attention to quality ensures that you can capture all of the color and detail in each one of your slides or negatives. Fixed-focus range, automatic exposure and color balance guarantee that your memories are captured optimally with accurate color conversion and perfect imaging.

Don't let your memories collect dust or turn yellow one day longer! Enjoy them every day and share them with SLIDES 2 PC.
